INTERVIEW WITH ROSE WILCHER,
FAMILY HEALTH INTERNATIONAL

The interview was conducted on [date] with Rose Wilcher, a senior health researcher at Family Health International (FHI). Rose has been with FHI for over [number of years] and has led numerous health studies in rural areas. She has also played a key role in the development of health programs that focus on improving maternal and child health in developing countries.

During the interview, Rose discussed the challenges faced in implementing health programs in rural areas and the strategies used to overcome them. She also highlighted the importance of community involvement in the success of these programs.

The interview lasted for [duration] and was recorded on [medium]. The transcript was reviewed by Rose and approved for publication.
